The of some of the best farces ever perpetrated by the city fathers in their palmiest days. It was shown that the patrolman and tankman in City creek canyon had en technically guilty of an accommodation in catching horses and turning them over to their owners, for which acupon their refusal to accept money for WHAT THE CHARGES WERE.

The charges made by Fernstrom and ontained in a resolution introduced about two weeks ago were to the effect that Joseph Puggley, patrolman in City creek canyon, and James Hilton, highline tankman, had been guilty of permitting sheep and horses to graze in the canyon and had accepted mutton as payment from the owner of the animals. The resolution stated that Land and Water Commissioner Joseph MacKnight and Superintendent Frank L. Hines of the Waterworks department had been apprised of the wrongdoing but did nothing in regard to the matter. It provided that both officers together with the two employees be removed from office. The sheep and horses were said to belong to one Mat Cochran, who gave the two men an order for mutton on the market of Raddon & Williams. LAWYERS WERE PRESENT

A large number of witnesses were examined and testified to conditions in City creek canyon. Parley P. Christenses, who with Attorney J. M. Bowman, represented the interests of the defendants, had a pleasant evening and let matters grow exciting while all the time he had in his possession an affidavit from Mr. Cochran that was sufficient to disapprove the charges as far as any criminality was concerned. The investigation lasted until nearly midnight, by which time nearly everyone present with the exception of the member from the Third was diagusted. It was finally ended by Councilman Wells moving that the committee report unfavorably on the adoption of the resolution. The motion carried by a vote of 2 to 4. Councilmen A. J. Davis and Neuhausen being absent. The vote was as follows: Yes-Black, Hartenstein, Hobday, Martin, Preece, Tuddenham, Wells, Wood and Hewlett. Noes-Barnes, Davis, E. H., Dean and Fernstrom

After the resolution had been read Councilman Black asked that the charges be sworn to, but Fernstrom evaded the request. Councilman Wood wanted the whole matter referred to the City Attorney for prosecution if he considered that there was any evidence sufficient to warrant taking the matter into court. Mr. Christensen stated that inasmuch as the defendants were charged with crime he defendants and their councel were permitted to be present at the investigation.

Hines made an investigation and told Fernstrom there was nothing to it. He denied emphatically that Fernstrom had said anything about the mutton matter. Land and Water Commissioner Mac-Knight was being examined, when Wells moved that the committee report unfavorably on the adoption of the resolution. Fernstrom was opposed to the motion and said: 'If you want to take the blame, then take it. The stock have been in that canyon—the stock were there. The son testified that he was up the canyon last September and noticed that the grass and ground was all trampled up near the divide, about five miles, he thought from the high line intake. He saw thirty-five or forty sheep and three or four horses up there, but knew not whom they belonged to. He saw no tracks of sheep near any water. The father said he had been hunting up the canyon in August and found the ground at the summits all trampled up by sheep. He saw no sheep. He saw roaring fires, but said nothing to the patrolman. He also offered the belief that the city would be swept by a flood from the waters of City creek, as a result of the sheep being pastured in the mountains. The prosecution their rested, Fernstrom saying they had more witnesses, but would not examine them.

Attorney Christensen then sprung the affidavit of Mathew Cochran, sworn to before a notary public on February 29th. He set forth that he had grazed sheep last summer in the mountains to the north and cast of the city; that he was acquainted with Mr. Pugsley and Mr. Hilton, but that neither of them at any time had ever permitted him or any of his employees to graze sheep on the city property, Mr. Pugsley, he said, had notified him that if he permitted his sheep to trespass upon city property he would be SHEEP IN THE CANYON

It is reasonably certain that the Commercial ciub will succeed in this endeavor, seeing how much conditions are in favor of Salt Lake. candidate is reported to lie with Tampmany. In which case it may be admitted the Judge is likely to be sufficiently gagged for the rest of his days. For what does Tammany care for a President except to speak only for and through him. A New York exchange declares that Hearst is certainly in the race "for good and with plenty." Especially "with plenty." He is said to have put \$2,250,000 out in his preliminary work the past three years already. And this same Gotham newspaper says Mr. Bryan's salary as the principal agitator and organizer is paid \$100,000 a year. The figure may be too high, but there is not a man on the map who will doubt, from things that have already been uncovered, that the Commonor is in the campaign for his health.

After all, if Hearst is really dumping his money into the race with such a lavish hand as the New York newspaper declares. Utah may already be bottled up for the young man. Things have been dreadfully silent the past week. And silence in such cases is pretty good evidence that some sampaign "dough" has been planted somewhere. But the "Swede" is not insensible alone on this thing. He is insensible to propriety and decency in public affairs as well.

To the Democrats of Utah who for several days permitted Mr. Tarpey to sing the songs of praise for Hearst into their unnusical cars, what discord there must be in the following from the pen of the great Louisville editor.

"Does any sane Democrat believe that Mr. Hearst—a person unknown even to his constituency and his colleagues, without a word or act in the public life of his country, past or present, that can be by any possibility be elected President of the United States."

The number of elk heads in this city and the magnificence of some of the specimens is a matter that especially attracts the visitor. The wonan who accepts a seat in a street car that has been surrendered by a galiant male, and acts as though it were not a favor, but her supreme right, leads one to assume that she does not understand the better code of street car ethics. She has no right to flop herself down into the seat vacated to her by perhaps a tired gentleman and not so much as speak a word of appreciation. But how many instances of this kind are witnessed on the crowded cars every day in the year! Of course the men should be gallant. But the women should be appreciative as well. 'I thank you,' speken in tones that carry conviction, will compensate for the surrender of a seat most any time. But a look that seems to say. Snow and lightning, such as was wit-nessed Tuesday night, is a phenomena that a seldem, if ever, witnessed outside of the mountains.

GIST OF POLITICAL GOSSIP

Councilman Martin, explaining his vote on the resolution of Councilman Black, which authorized several of the heads of departments of the city to employ their subordinates, insisted that he refused to be persuaded that a man who works by the day or by the month and who may be discharged at any time, is an officer. If not an officer, then he held that the contention of the Mayor that the appointments or employment of these men, is mere buncomb.

ments or employment of these men, as mere buncomb.

Councilman Martin reasoned well. The insistence of the Mayor is not indured by thoughtful persons anywhere. To hold that a day or month laborer is an official of the city, is clap-trap and Mayor Morris deserves that no dignity be shown to him as the city is executive so long as he insists on parading himself in the light he has been for the past four weeks.

It has been announced that the Populists have had a meeting in some dark apartment and have determined to "go it alone". They may resolve all right, but it is very certain that if they hit on some fetching cumpaign issue—something that will be attractive to a considerable number of malcontents—that they will not be permitted to control that issue. The Democracy needs something of that kind in its business and if it develops and the Populists will not give it us, there is a strong probability that the Populists will have plenty of reason to feel that as an have plenty of reason to feel that as an organization it is difficult to be exclusive. They may "go it alone," but that depends.

If a few more prominent Republicans de-cline the national chairmanship, even the torn and twisted Democracy of the Utah State will take courage and spruce up.

But what a helpless and impotent or But what a helpiess and impotent or-ganization the local Democracy has be-come. To be loaded down with a Mayor who refuses all overtures that would aid him in justifying the Democrats in mak-ing a successful fight for him list fall, and to have it go our that two such men have captured the consolidated committee, is a state of affairs that earnest and con-scientious Democrats shrink from as too intolerable to dwell upon.

prisoner was arrested last Thursday and the money was found on his person in the city juil two days later. A careful search at the time of arrest falled to reveal the Judge Parker's fate as a Presidential
